

Dayi Middle School Visit

25 January & 18 August 2011

On 25 January and 18 August, two groups of students and staff from Dayi Middle School visited Greenridge Secondary School. The first group on 25 January consisted of 25 students with two teaching staff. The second group and on 18 August, a total of 33 students with two teaching staff visited our school. Mr Liu Ke He, Principal of Dayi Middle School, led both visits. They benefited from this visit and have a better understanding and experiencing secondary education in Singapore.

A day tour around the Greenridge Secondary School compound was led by our student councilors. They toured special rooms such as the Performing Arts Hub, computer laboratories, Science Laboratories, 'Scene One' Studio, Heritage Room and Energy Learning Hub.

The visitors also experienced classroom learning together with our students.

Through this opportunity, our students and teachers gained a better understanding of our counterparts from China and this in turn fostered a valuable learning exchange relationship.
