

Hosting Foreign Educators

Leaders in Education Programme (International) – 20 Jan & 22 Jul

Greenridge Secondary School was very honoured to collaborate with the National Institute of Education (NIE) in hosting a group of education leaders from various countries such as Brunei Darussalam, Cambodia, Hong Kong, India, Laos, Indonesia, the Philippines, Qatar and Thailand.

The purpose of their visit to our school as part of the LEP(I) course was to provide an “on-the-ground” experience of what the Singapore education system is about. They toured school facilities and observed classroom activities.

After the tour, course participants were joined by our School Leaders for a fruitful discussion on their observation of the visit as well as on the current development of education climate in secondary schools.
