

Visit from Gaoxin No.2 School, PRC

29th and 30st July

On 29th and 30th July, Greenridge Secondary School welcomed a group of 40 students and 6 staffs from Gaoxin No. 2 School, People's Republic of China. Over the course of the two days, the visitors as well as the staffs and students from GSS had the opportunity to interact and learn from one another.

On the first day, the visitors were brought on school tour to view the various facilities in GSS such as the laboratories, Indoor Sports Hall and the Energy Learning Hub. The students then went through a series of team-bonding activities with the student leaders from GSS. In the afternoon, the visitors had an Art Workshop where they learned to make paper-cuts of Merlion, a famous symbol of Singapore. They then had the opportunity to view various Co-Curricular Activities (CCAs), such as Choir, Basketball and Rugby. Through the interaction, the visitors learnt about the holistic education system in Singapore.

For the second day, the visitors participated in two practical lessons: Food and Nutrition (F&N), and Design and Technology (D&T). For the F&N class, they learned how to make Ondeh-Ondeh, a traditional Malay delicacy. For the D&T class, they learnt on how to make Spinning Tops which they can then bring home as souvenirs. The visitors enjoyed the hands-on experience as they learnt about the various traditional food and games in Singapore.

The two-day exchange proves to be a rich cultural experience for both the visitors as well as the staffs and student leaders from GSS.
