

BEIJING & SHANDONG

ALP & LLP COMBINED LEARNING JOURNEY
22 - 27 NOVEMBER 2015

On 22nd November 2015, a group of our students embarked on a learning journey to China that was part of our school's Life Long Learning Programme (LLP) which aims to develop values through aesthetic appreciation, and also our Applied Learning Programme (ALP) which aims to develop our students' media literacy skills through hands on approach.

Our students visited a school in Shandong where our students learned from the local students the finer details of Chinese calligraphy and traditional painting. Our students experienced first-hand the patience and concentration required to perfect their brush strokes, and the rich heritage of the art form.

Apart from Shandong, our students also visited various attractions in Beijing. The rich history of the Chinese capital really fascinated the group. For most of our students, it was their first time to China, and it was a great experience to personally visit the historical sites.
